EDUCATION

B.S. Computer Science (BSCS)

Sep 2023 – Expected 2027

CGPA: 3.01 / 4.0 • Currently in 6th Semester

TECHNICAL SKILLS

Languages: Python, Java, C++, SQL

AI / ML: Machine Learning, Computer Vision, YOLOv11, Scikit-learn, pandas, NumPy

Frameworks: Flutter, .NET (Windows Forms)

Web: HTML5, CSS3, PHP, Bootstrap, JavaScript

Databases: SQL, database management, CRUD operations

Tools & Platforms: Git, Microsoft Office Suite, ChatGPT / Claude

Certifications: AI Essentials (Coursera) · Python Programming (NJV CEP) · Software Development (Udemy) · Ethical Hacking & Cybersecurity (Udemy)

PROJECTS

Road Damage Detection — Python · YOLOv11 · Computer Vision

- Trained a YOLOv11 object-detection model to identify and classify road surface damage from images, enabling automated infrastructure monitoring.
- Applied data preprocessing, model fine-tuning, and evaluation metrics to achieve reliable detection accuracy.

Customer Churn Prediction — Python · Scikit-learn · pandas

- Built a supervised ML classification model to predict customer churn, processing and feature-engineering a real-world dataset.
- Evaluated model performance using accuracy, precision, and recall; delivered actionable business insights from results.

AI-Generated Plagiarism Detector — Python · NLP · Custom Dataset

- Designed and trained a text-classification model on a curated dataset to distinguish AI-generated content from human writing.
- Managed the full ML pipeline: data collection, preprocessing, model training, and inference.

University Portal UI — HTML5 · CSS3 · Bootstrap · JavaScript

- Designed a fully responsive, modern university portal interface with clean navigation, component-based layout, and cross-browser compatibility.

CRUD Desktop Application — .NET · Windows Forms · SQL

- Developed a full-featured desktop application with create, read, update, and delete operations connected to a SQL database backend.

WORK EXPERIENCE

Computer Operator | Shehbaz Mill, Gharo

Aug 2024 – Nov 2024

- Managed IT data entry and records using Microsoft Office Suite, maintaining accuracy across high-volume operational data.
- Handled day-to-day technical tasks and equipment upkeep, resolving minor hardware and software issues independently.

IT Intern | NJV Govt. Higher Secondary School, Karachi

Apr 2022 – Jul 2022

- Supported the IT department with database management tasks including data entry and writing SQL queries for record retrieval and maintenance.
- Assisted in routine server maintenance and troubleshooting, gaining hands-on exposure to enterprise IT operations.
